

# HOPE GROWS COMMUNITY ART PROJECT

- COMMUNITY SERVICES COLLABORATION -

Times are calling for us to find new ways for connection & creativity.

During this time of isolation, residents are invited to come together to bridge the social distance through community and art.

Show your creative side and design, color or pattern a flower petal that will “grow” to form whole flowers and spring into a community garden.

Residents can take a stroll through the park and watch our garden grow in the Library’s display windows.

Coloring sheet and submission details on back.

#IrwindaleTogether
